

## Meet the Entities Poster Session Friday 20 September 2013; all-day

The Meet the Entities session is a tradition within the Colloquium. It is an opportunity for delegates to meet and visit entity representatives, obtain information and make linkages with each entity.

In light of Cochrane's 20th Anniversary, this poster session is an opportunity for these Cochrane entities to highlight their best work: what they are most proud of; what had the most impact; and, how they have contributed to better evidence-informed health care around the globe.

Entity representatives will be at their posters to talk to you during the breaks and the last half hour of lunch today.
